

Taiwan (Formosa)

(1886-1895, 1945-)

Island off the coast of China, in the west Pacific Ocean. Taiwan was conquered by China in 1683 and remained a Chinese province until 1895, when it was ceded to Japan. In December 1949, General Chiang Kai-shek withdrew the Nationalist Army to Taiwan, after the communists had conquered the mainland of China. Political controls began to loosen after Chiang's death in 1975. In recent years, Taiwan has become a democratic nation.
