

# Korea

(1884-1885, 1895-1905, 1946)

A peninsula in east Asia, surrounded on three sides by the Sea of Japan and the Yellow Sea and bounded on the north by Manchuria and the Soviet Union. Korea was united in the seventh century and at times was under Chinese control. In 1895, it passed under Japanese influence, and in 1910, Japan annexed Korea. After World War II, Korea was divided at the 38th parallel into two zones of occupation the north under the Soviets and the south under the United States. In 1948, separate regimes were established in the two zones.
